

raytracer::physics  
::GradientCalculator

```
graph BT; A["raytracer::physics  
::ConstantGradientCalculator"] --> B["raytracer::physics  
::GradientCalculator"]
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray box representing the base class, and at the top is a white box representing the derived class. A blue arrow points from the base class box to the derived class box, indicating that the derived class inherits from the base class.
